BMW Group Cloud Exchange Drive. 3rd Party Upload and Download Guide.

HOW TO UPLOAD TO THE CLOUD.

Prerequisites.

In order for a third party to upload into the BMW Cloud Exchange a unique folder will need to exist. This folder is created by your contact in BMW Group, who will email you the link to the folder.

Process.

1. To access the BMW Cloud Exchange, click on the link (Access from the internet) sent in the email from BMW.

					-	

2. Set an upload password – Passwords should be created automatically using the 'Generate Password' option as this is the most secure way of creating a password. Passwords should be provided to the party who requires access separately, so make a copy of the password – Please do not send it in the email with links to the data, use another form of communication e.g. via telephone, text, etc.

Please specify a password for the encrypted upload. The password minimum length is 10 characters and must consist of 3 out of 4 character types:
lower case letters (a-z)
capital letters (A-Z)
• numbers (0-9)
 special signs (!\$%a/()=?*_:;[])\+#,<>)
Mulitple equal characters are not taken into account when determining the minimum password length.
Set password Generate password Show password Close

3. Once the password has been set successfully, the user can then tick the 'Terms of Use' box then use the 'Browse...' button to select the file(s) required for upload. Once the file(s) have been selected the 'Upload' button should be clicked to commence the upload to the BMW Cloud Exchange. An email notification will be sent to the user who created the folder to advise them of the upload. Please note that it may take up to 15 minutes for the files to synchronise with the server before they will be available to download.

BMW Group Cloud Exchange Drive: Third Party Guide. Version 1.0 January 2018.

HOW TO DOWNLOAD FROM THE CLOUD.

Prerequisites.

In order to decrypt information from the BMW Cloud Exchange, users will require 7-Zip which is available from: <u>http://www.7-zip.org/download.html.</u>

Process.

1. Users will receive an email (as per below) with links to the BMW Cloud Exchange.

2. Clicking on the link titled 'Access from the internet' will then open the BMW Cloud Exchange folder. Tick the 'Terms of Use' box and the files which you wish to download (if a folder has been shared this will appear as one zip file) and then click the download button to commence the download.

BMW Group Cloud Exchange Drive: Third Party Guide. Version 1.0 January 2018.

3. When the download commences an option will appear at the bottom of the screen allowing the user to select where to save the download. You can use this function to save the zip folder to your desktop or another suitable folder location.

	2000			
to you want to open or rave and download zin from and predit how com?	Onen	Save T	Cancel	1
you want to open of save exu_download.zp non exu-prodition.	Open	Jave	Cancer	0

4. Once the file has been downloaded – right click on the download and select the 'Open with'... '7-Zip File Manager' option.

	Open Display access rights 7-Zip	÷		
	Scan for Viruses			
	Open with	F	12	7-Zip File Manager
~	Always available offline Sync Restore previous versions	Þ		Windows Explorer Choose default program
	Send to	Þ	L	
	Cut Copy			
	Create shortcut Delete Rename			
	Properties			

5. The contents of the zip file files can then be opened within 7-Zip – the password will be requested when the first zip file is opened – these files can then be saved on your device once decrypted. The password will not be needed again.
