Used LCV Vehicle Registration Number Lookup

Used LCV Vehicle Registration Number Lookup.

FAMOS has been updated to enhance the search capabilities for Light Commercial Vehicles (LCVs). Users can now efficiently search for used LCVs using the vehicle registration number.

To utilize this feature, simply set the "Vehicle State" filter to "Used" and select "Light Commercial Vehicle" as the "Vehicle Type". Upon doing so, the "Registration Number" input field will become available to use.

The screenshot displays the "Vehicle Search" interface. On the left, there are three input fields: "Vehicle State", "Vehicle Type", and "Make". The "Vehicle State" field is set to "Used". The "Vehicle Type" field is open, showing a dropdown menu with the following options: "Car", "Motorcycle", "Light Commercial Vehicle" (highlighted in blue), "Heavy Commercial Vehicle", and "Other". The "Registration Number" field is now visible and active, indicated by a blue box and an arrow pointing to it. Below the search fields are "Search" and "Cancel" buttons.
